## OREGON NORMAL SCHOOL

Upon arriving, a list of boarding places and rooms will be furnished upon application to the dean of women, who may be found at the dormitory. In order that the best sanitary conditions may be secured, all boarding places will be inspected and no place will be recommended by the dean that does not have a favorable report. The normal school is coeducational, but it is recommended that men and women have rooms in separate rooming houses. The dean will not recommend boarding and rooming houses, except with the idea that such houses, so far as rooming is concerned, will be exclusively for men on the one hand, or exclusively for women on the other. Baggage should usually be left at the depot until a home is secured.

### FACULTY

There is a strong faculty thoroughly qualified for the work of training teachers in all lines of work.

### BUILDING AND EQUIPMENT

The main building is a large brick structure, well adapted to the work of the normal school. It includes twenty-two classrooms and laboratories, library, and an assembly hall with a seating capacity of 1,000. It is heated by steam and lighted by electricity.

### THE GIRLS' DORMITORY

Accommodations are provided in the dormitory and in the senior cottage for one hundred twenty women. Each room is nicely furnished with all bedding, bed linen, towels, etc., no student being required to furnish anything except her personal belongings. All except individual laundry will be done at the institutional laundry. The student may do her washing and ironing at the institutional laundry at a small fee for the use of the same. All loss or damage to bedding or furniture will be charged up to the room holder. The student who is so fortunate as to secure accommodations in the dormitory or cottage will have all the conveniences of the most cultured home.

Girls wishing to live in the dormitory should send two dollars to reserve room. Under no circumstances will this fee be returned until the student has lived in the house one term. Residence in senior cottage is decided by vote of the faculty.

The following scale of prices will be in effect for the year 1919-1920:

Room rent per week, payable monthly in advance.....	\$1.00
Board per week, payable monthly in advance.....	4.00
Room deposit holds room until opening day of school.	
No reduction for meals or room will be made unless absent for more than one week.	
The aforesaid prices are subject to change.	

It is suggested that women who plan to live in the dormitory provide themselves with shoe bag and laundry bag to be fastened to the closet door. The door is twenty-four inches wide. Each girl provides her own dresser scarf. Dresser forty-two by nineteen inches.

#### DOMESTIC SCIENCE AND ART

Adequate and well-equipped rooms are provided in the training school building for the domestic science and domestic art departments.

#### GYMNASIUM

The gymnasium is a brick building and well equipped with hot and cold baths, dressing rooms, and a good-sized floor suitable for instruction purposes and the playing of such games as basket ball, indoor ball, volley ball and the like.

#### TRAINING SCHOOL

The new \$50,000.00 training school building has been especially planned for training school purposes and is equipped with the most modern equipment.

#### EXPENSES

The expenses are nominal and every means are used to keep the expenses of a student at a minimum.

The enrolment fee is \$6.00 per semester.

There is also a student body fee of \$1.50 per semester; also a lyceum course fee of \$1.50 per semester. All of these fees are payable to the registrar. No programs are made until a receipt for fees has been presented to the president. In no case are fees refunded. No additional fee is required for vocal music and art. Private lessons will be given by private piano instructors at reasonable rates.

#### ROOM AND BOARD

Living expenses in private homes are as low as they are in any school city in Oregon, and range as follows: Furnished room and table board from \$5.00 to \$5.50 per week; furnished room without table board, \$2.00 per week; unfurnished room without table board, 50 cents per week.

Some students reduce their expenses in various ways. Some rent rooms and board in clubs; some do light housekeeping. There are a great variety of ways whereby students may economize if they desire to do so. Employment in and about the buildings will be furnished whenever practicable. There are many opportunities for really capable students to meet a part of their living expenses by assisting in the housework of private families. When such additional duties are undertaken, however, it is better for the student not to attempt the entire work of any class, but to take one or two semesters longer to complete the course and thus avoid overwork.

#### STUDENTS' RULES AND REGULATIONS

The school fixes few arbitrary rules or restrictive regulations. Those students only are admitted who are believed to have well formed and correct habits. Both in the school and elsewhere they are expected to maintain the attitude and bearing of cultivated people, and to be governed by principles of morality and honor.

The courtesies and requirements of good society apply to the management of the students in respect to personal associations, so far as the conditions under which the students live make it possible. It is expected that under no conditions will lady students permit gentlemen to call upon them in their lodging rooms, and persons keeping boarding houses will be held responsible for such violations.

No student shall ride or drive unless accompanied by a chaperone, approved by the dean of women. No young lady shall receive calls from gentlemen except on Friday, Saturday or Sunday. No student may leave town without the consent of the dean of women, Independence not included. The rules governing social affairs shall be the same in the homes as in the dormitory.

Any apparent infraction of the rules governing the social life of a student living at the house of any householder coming to the notice of such householder shall immediately be reported by such householder to the dean of women. The dean of women holds the right of forbidding students to live at places where these reasonable conditions are not enforced.

Student life and success calls for systematic and careful study of the lessons assigned. Students shall be in their rooms by 7:30 and shall retire by 10:30 p. m.

Men students and women students are not allowed to room at the same house. This includes men roomers other than students.

All social functions of the school must be chaperoned, and such chaperoning must be approved by the dean of women prior to the date of such social function.

Students, while in the building, and not in classrooms, must remain in the library during the vacant recitation, unless excused by the president.

Chapel exercises will be held each day during the term. All students are required to be present at these exercises, unless excused by the president.

No student shall engage in dancing while a member of the Oregon Normal School except in the normal gymnasium or in the home of a member of the faculty; *provided*, that this shall not apply to a student when at home during vacation.

#### PUBLIC LECTURES AND ENTERTAINMENTS

Students have the privilege, at cost, of attending a fine course of lectures, concerts and entertainments each year. These courses are sold at a low price in consideration of their merit. There is no better arrangement anywhere than is found possible to maintain here, so that the educational advantages are greatly increased. The following lectures and entertainments have been given during the years 1917-1918:

*Picture Shows*—"Jack and the Bean Stalk;" "Miss George Washington;" "Alladin and His Wonderful Lamp;" "For the Freedom of the World;" "The Cinderella Man;" "Thais;" "The Fields of Honor;" "Joan, the Woman;" "Rebecca of Sunnybrook Farm;" "The Man Without a Country;" "Intolerance;" "The Little American;" "Mother o' Mine;" "Garden of Allah;" "The Bluebird;" "Over the Top."

*Lecture Course Numbers, September 24 to February 9*—The Ben Greet Players in "The Merchant of Venice;" Dr. Russell Conwell in his famous lecture, "Acres of Diamonds;" Ian Hay Beith in his lecture, "Carrying On."

*Lecture Course Numbers from February 9 to June 19*—Ernest Gamble Concert; Dr. H. H. Powers, Boston, Mass.

*Speakers Outside of the Lecture Course*—Superintendent J. A. Churchill, Superintendent of Public Instruction, Salem; Rt. Rev. Walter Taylor Sumner, D. D., Rector of Episcopal Church, Portland; Dr. Carl Gregg Doney, President Willamette University; Rev. James Elvin, Pastor Congregational Church, Salem; President Nash, Bellingham Normal, and Miss Sperry, Head of English Department, Bellingham Normal, Bellingham, Washington; Three Canadian Officers; Mary F. Isom, City Librarian, Portland; William Finley, of Fish and Game Commission; Col. John Leader; Sarah Louise Arnold, Dean of Simmons College, Boston; Cornelia Marvin, State Librarian; Mable Jane Holmes Parsons; J. O. McLaughlin, Superintendent Schools, Hood River; President Kerr, of Oregon Agricultural College; O. P. Coshaw, Lawyer, Roseburg; Rev. Joshua Stansfield, of Portland; B. F. Irvine, Editor of Oregon Journal.

## LITERARY SOCIETIES

There are three literary societies at the normal: One, the Normals, for the men; two, the Vespertines and Delphians, for the women: The society work is both enjoyable and beneficial. There are two aims in the work: First, to do work that will assist in developing the powers of the students; and second, to give the student some ideas which he may use in forming programs of his own.

To meet these ends the work is necessarily varied in character. This year patriotic features have formed an important part of many programs and have been the inspiration for several entire evenings. In addition to this the usual readings, debates, impromptu speeches, current events, book reviews, talks, musical numbers, drills, folk dances, etc., have been given, thus giving the student valuable suggestions for making a well-rounded program.

## NORMAL UNITS

A normal unit is a subject running one year, five times a week, with recitations not less than forty-five minutes in length. Normal units required to complete the several courses are as follows:

(a) *Standard Normal Course*: Ten units above the completion of a four-year high school course.

(b) *Elementary Course*: Five units above the completion of a four-year high school course.

There are two ways of securing admission to the school: First, by credentials; second, by examination.

## ENTRANCE REQUIREMENTS

The minimum requirements for entrance to the Oregon Normal School shall be the completion of the fourth year of a standard four-year high school, or the equivalent.

## NORMAL CREDITS

*How Credentials May Be Accepted*: Normal units are accredited on credentials for admittance to the school as follows:

1. Graduates of standard normal schools or of colleges or universities will be graduated from the Oregon Normal School after residence work of one year. In case the accepted credit includes at least one and one-half units in education, such graduates may be graduated from the Oregon Normal School after residence work of one-half year. Students who have completed other institutions' work equal to that required in the

Oregon Normal School, but who are not graduates, are required to do one year's residence work before graduation, such residence work must include the last quarter immediately preceding graduation.

2. To graduates from full-course Oregon normal schools prior to September 1, 1911, twenty-three and one-half units above the eighth grade will be granted; *provided*, that in such cases no additional credit will be given for teaching experience.

Holders of state diplomas or state life certificates may be graduated from the Oregon Normal School after residence work of one year; *provided*, that in such cases no additional credit will be given for teaching experience.

3. To credentials from other states, on the same basis as those from Oregon.

Credit for successful teaching may be given as follows:

For thirty months of successful teaching one unit of credit may be given if student demonstrates in her practice teaching that her experience was worthy of such recognition.

Teachers of sixty or more months' experience who hold a valid five-year state certificate (which will not expire for at least two years) may be given sixteen units above the eighth grade and will be graduated from the standard course only after eighty weeks of satisfactory residence work.

The foregoing rules will be applied hereafter in substitution for all rules previously in force on these subjects.

#### SPECIAL PROHIBITIONS

1. No student may graduate until all required subjects are completed.

2. No credit for summer school will be allowed if such credit will permit the student to graduate before the end of a term or summer school.

3. Credit will not be allowed for more than two summer schools.

4. Only one and one-quarter units can be made in summer schools, taken after one has to his credit twenty-three and one-half units in the Oregon Normal School.

5. No student shall be allowed to take more than one and four-tenths credits during any one term toward graduation.

6. No credit for correspondence work done in other schools will be given unless such work is approved by the head of the department concerned.

7. Since the plan of the school work has been changed from that of the semester to the ten-week term, no credits will be allowed unless the student is in attendance at the beginning of the term. Proportional credit will not be allowed as formerly for less than ten weeks' attendance.

8. No student shall receive credit for more than twenty-eight hours any one term and shall not take more than thirty hours (including activities); *provided*, that students doing practice teaching shall not take more than twenty hours (including the practice teaching).

#### ONE-HALF-YEAR STUDENTS

Students in attendance for one-half year only shall take (or substitute satisfactory equivalent work taken elsewhere) the following courses:

1, practice; 2, classroom management (one term); 3, Oregon school system or history of education (one term); 4, professional language or professional grammar (one term); 5, dramatization and story telling (one term); 6, music, or drawing, or domestic art (two terms of any one); 7, library methods (one term); 8, professional history, professional arithmetic, or professional geography (one term of any one).

#### ONE-YEAR STUDENTS

##### *Required Subjects*

1, practice; 2, school management and one of the following: history of education, Oregon school system, city supervision, rural supervision; 3, observation and lesson plans for any one course in psychology; 4, four quarters of English; 5, four courses in arts, the three fundamentals and one elective; 6, library methods; 7, penmanship; 8, professionals, any four terms.

Examination for advanced standing are permitted in the case of work claimed to have been done elsewhere for which satisfactory credentials are not submitted.

The normal school endeavors to give just credit for all scholarship which the applicant may possess. Applicants for advanced standing for work done in other schools must present an official statement of such work. This statement must cover the following points:

1. The exact length of time spent in the school, with the dates of entering and leaving.
2. The number of subjects studied each term.
3. The exact subjects studied.
4. The number of weeks spent on each subject.
5. The length of recitation period.
6. The record of the grade of work done in each subject.

Blanks prepared for this purpose may be obtained upon application. High school graduates must present a complete certified record of their high school course. This is filed in the office and kept as a part of the student's record.

The school reserves the right at any time to require a student who is notably deficient in subject-matter to make up such deficiency before pursuing further his normal course.

Every person before being admitted to the school will be required to sign a statement that he or she intends to teach in the public schools of Oregon.

### COURSES OF STUDY

#### A. Standard Normal Course:

(a) *Requirements:* The minimum requirements for entrance to the Oregon Normal School shall be the completion of the fourth year of a standard four-year high school or the equivalent.

(b) *Graduation:* The completion of two years' work, including a thorough review of the common branches, and training in the practice school.

(c) *Certification:* The superintendent of public instruction shall issue certificates to graduates from the standard normal course as follows:

1. A one-year state certificate shall be issued without examination, upon application, to graduates of standard normal courses, authorizing them to teach in any grammar school or in any one-year, two-year, or three-year high school in Oregon.

2. The holder of a one-year state certificate, issued in accordance with the provisions of paragraph 1, shall, after six months' successful teaching experience in this state, and upon the recommendation of the county superintendent of the county in which the applicant last taught, receive a five-year state certificate without examination, authorizing him to teach in any grammar school or in any one-year, two-year, or three-year high school in Oregon.

3. The holder of a five-year state certificate, issued in accordance with the provisions of paragraph 2, shall, after thirty months' successful teaching experience in this state, and upon the recommendation of the county superintendent of the county in which the applicant last taught, receive a life state certificate authorizing him to teach in any grammar school, or in any one-year, two-year, or three-year high school in Oregon; *provided*, that he shall receive a life state certificate authorizing him to teach in any of the schools of this state

(c) *Certification*: Upon the satisfactory completion of the elementary course a one-year state certificate will be issued without examination, upon application, by the superintendent of public instruction; which certificate shall be renewed after six months of successful teaching experience in Oregon and upon the recommendation of the county superintendent of the county in which the applicant last taught.

#### ORGANIZATION

The Oregon Normal School is organized for financial purposes into two semesters of ten weeks each, and for instructional purposes into four terms of ten weeks each; and, also, a summer term of six weeks. The term organization makes it possible for a student to enter the school regularly four times a year.

## GENERAL STATEMENT

It is hoped that this bulletin may fall into the hands of some person who is planning to go away to school and who is willing, if it is careful and thorough preparation for teaching that is wanted, to consider going to the Oregon Normal School. This institution invites thoughtful comparison with others of its kind in the excellence of its faculty and equipment, the extent and thoroughness of its course of study and methods of instruction, the splendid opportunities afforded by it and its community for quiet study and wholesome student life, its thoroughly convenient and healthful living facilities, and the unusually low cost at which all of its advantages may be had.

May I suggest to such persons that the state has provided a normal school to assist you in securing this special preparation? The school and its equipment are for your benefit. You may become a good teacher without a normal school training, but you will become a good teacher more quickly, more easily and more economically by taking advantage of the inducements offered by the normal school.

More than seven hundred new teachers are needed each year in Oregon and the normal school should supply a large part. Boards of directors and county superintendents have learned by observation and experience the value of the normal-trained teacher. I believe you will agree with me that such training will not only increase one's usefulness to her school, but will result in better positions and salaries.

The Oregon Normal School was established and is maintained for the purpose of training teachers for the schools of the state; here no one can matriculate without signing a pledge to the effect that the purpose of entering the school is to fit himself or herself for the work of teaching.

Of such person may I ask whether you have seriously considered the advisability and possibility of preparing yourself for teaching by means of a normal school? Have you thought of the pleasure to be derived from the pleasant and helpful associations with a cultured faculty and a helpful, sympathetic student body? Do you realize how much easier and more satisfactory is the certification route by way of the normal diploma than by the dull and uninteresting grind of the examination? Do you feel that it is easier to secure and retain good positions if you are able to say, "I am a graduate of a normal school"? Perhaps you are not aware of the fact that a standard normal diploma is taken in lieu of an examination for certification in more than twenty-six states. Is it not a satisfaction for one to feel that ample preparation has been made for the responsible work of teaching? Have you fully consid-

ered the lifelong friendships that are made while pursuing the work of a normal school—friendships both of faculty and students that are valuable assets in your future work—friendships that can be secured no other way? All of these thoughts, coupled with the fact that the demand for trained teachers can not be filled, will, I am sure, cause you to think seriously of taking up work in an institution that will meet all these conditions, such as the Oregon Normal School does.

Perhaps you are saying, "I admit the facts, but I am financially unable to take such a course." May I say that we have many students who are partially making their own way while at school, and what others are doing you can do. All that is required, if you have health, is to make up your mind to take the course and then stick to it.

In order to assist you, may I enumerate some of the advantages of our school? We have a faculty of twenty thoroughly trained teachers. The Oregon Normal School is the only one in the state whose sole function is the training of teachers. It offers five courses of study leading directly to state life and one-year state certificates without examination. Two well-graded public schools and three rural schools are used for training school purposes, thereby fitting our students for any grade of work. The water supplied is pure; the cost of living reasonable; and last but not least, one of the most helpful, cheerful, cooperative, sympathetic student bodies that one would wish. This is brought about from the fact that every student pledges himself or herself to become a teacher; therefore, there is one definite purpose, namely, preparing for the great work of teaching.

Perhaps enough has been said to induce you to carefully consider entering our school.

Trusting that you will become interested in our school to the extent of enrolling as one of its members, I am,

Respectfully yours,

J. H. ACKERMAN,  
*President.*
